

# #YOUNGREFUGEES

## Community of Practice

A learning and practice community for those working to support the mental health and wellbeing of refugee and newcomer children, youth, and their families.

### Who's Invited

Researchers, policy makers, local sponsorship groups, community based organizations, health care workers, educators, and others working to support refugee young people.

### How to Participate

This is your space! Post discussion topics or questions, share resources and announcements, add to the event calendar, and participate in webinars and other learning opportunities. While the CYCC Network will act as moderator, our hope is that this space will become a community led initiative that participants can use in ways that are meaningful to them.

### How to Join

Email [cyc@dal.ca](mailto:cyc@dal.ca) to gain access to the Basecamp.

### Introduction

The #YoungRefugees Community of Practice is a space to discuss best practices, discover opportunities, and share resources to advance the skills, services, and programs that support refugee young people.

This initiative is the result of a conversation started at the CYCC Network's #YoungRefugees Wisdom2Action event, where participants expressed interest in having an online platform for continued discussion and collaboration. Learn more at [cycnetwork.org/wisdom2action-events/refugees/](http://cycnetwork.org/wisdom2action-events/refugees/).

### What to Expect

- Online discussion board
- Resource sharing platform
- Webinars and other learning opportunities
